VisCheck™

flexible solutions for school security

VisCheck is the perfect solution for schools needing a complete visitor management which is affordable and efficient while providing robust functionality.

No other visitor management product offers such functionality, speed, ease of use and upgrade scalability.

VisCheck™ for Schools, without question provides the most affordable and effective way to track visitors your school wants to allow inside the school facility.

It is as simple as scanning a Driver's License or other state issued ID or entering a name from a keyboard.

VisCheck™ automatically checks sex offender databases and notifies school personnel of a potentially dangerous person.

Additionally the system checks for students who have been expelled and no longer allowed on campus, checks for person who are known gang members or who have active restraining orders.

VisCheck™ prints a badge with custom configured information.

VisCheck™ supports special event visitor management as well as school volunteers and vendor badging.
